- 12 U.S. federal agencies & non-government organizations
- 50+ non-profit organizations engaged in fields such as education, public health, energy, conservation, democratic governance, entrepreneurship, and financial literacy

Mission defined. Mission achieved.

CASE STUDIES

DEFENSE INTELLIGENCE AGENCY LANGUAGE SERVICES (DLS)

On the DIA's DLS contract, AGI provided high-volume translation, interpretation, monitoring, transcription, and all-source/HUMINT support for 78 DoD and IC organizations in 68 languages across the U.S. and overseas. AGI staffed 29 TS/SCI-cleared linguists and project managers onsite, supported by offsite BSD personnel to meet surge demands in complex technical domains. Over two years, AGI conducted 65 interpretation events totaling 377 person-days, including rapid deployments to Palau and Korea. AGI BSD processed 50,000+ technical pages in 26 languages, resolved 71% of a 20,000-page backlog in 10 months, and completed 85% of rush tasks using advanced tools, generating assets that improved consistency across NMEC and lowering costs. AGI BSD's ISO 17100 workflows supported multilingual delivery to foreign allies and senior leaders. AGI's performance led to a shift from CPAF to CPFF and performance improvements were later adopted enterprise-wide by NMEC.

Customer Feedback: "AGI process improvements and metrics-based management resulted in higher quality and capacity leading to DLS being increasingly utilized by the Intelligence Community. Per DIA Contractor Performance Evaluation, "In large part due to the team's level of professionalism, we have found an increase in documents requested largely due to DLS's ability to meet or exceed customer expectations."

Per DIA Contractor Performance Evaluation, "AGI delivered performance results exceeding the acceptable quality limit standards for security processing, saving the Government money attaining very high candidate submission rates due to quality control of vetting, testing and complete security documentation."

16th AIR FORCE LINGUIST AND ANALYST SUPPORT SERVICES (LASS)

As prime contractor on the LASS program, AGI deployed over 140 TS/SCI/polygraph-cleared linguists and staff across 12 U.S. and overseas sites, delivering translation, interpretation, training, and analysis in more than 30 critical languages. Services spanned technical domains such as military, legal, medical, and counterterrorism. AGI completed a seamless 1-week contract transition, maintained a 97% retention rate, and supported a 350% mission increase. The firm performed 99% of quality control, reducing rework through SOP-driven workflows and feedback loops, and developed over 300 training programs and 44,000+ learning materials. Around-the-clock program management enabled rapid surge response and real-time metrics reporting. AGI introduced a mentored learning program, authored 18 SOPs, and consistently exceeded expectations in cost, schedule, and performance.

Customer Feedback: Per a PPQ completed by the Director, Intelligence Force Management & Training/Senior Language Authority/Human Language Technology Authority:

...regarding AGI management, "The PM continued to keep the team motivated and focused on developing new approaches to constantly improve products and processes," and cited "AGI's willingness to do whatever it takes/whenever required."

...regarding AGI linguists and analysts, "Excellent, better than any other company we have used."

AIR FORCE CULTURE AND LANGUAGE CENTER (AFCLC)

AGI has developed and executed more than 650 language, regional expertise, and cultural (LREC) and critical skills programs worldwide for the Air University AFCLC in support of diverse missions through the Language Enabled Airman Program (LEAP). AGI as delivered tailored instruction through a wide range of intensive training events—traditional platform, virtual, Isolated-Immersion, Immersion, Areas Studies Immersions, etc.—at more than 100 sites, including 70+ OCONUS locations, in more than 40 languages and associated cultures.

Customer Feedback: "AGI intercultural awareness initiatives have been recognized by AFCLC leadership as a proven effective model to "promote interoperability and enhance readiness across USINDOPACOM and other AORs, enabling work with foreign forces and sister services in various settings."

"AGI has been a critical partner for the Air University AFCLC providing education and training that has enabled Airmen to seamlessly partner with foreign Air Forces and relate to populations around the globe.... Participants consistently provided feedback that programs raised their language proficiency across four modalities as well as intercultural competence. Advanced Area Studies Immersions – an intensive 3-week university-level program have been recognized as a benchmark program by Air Force leaders at AFCLC's annual LEAP PMR."
